

***“WELCOME TO YOUR NEW  
COMMAND STATION,  
COMMODORE!”***

## SPACE BASE: COMMAND STATION

Following the events surrounding Shy Pluto, two new zones within known space have opened up. The Admiral has promoted two new Captains to the rank of Commodore to command these new Space Bases and work their sectors!

The Space Base™: Command Station expansion allows players to expand their games of Space Base™ to include two more players. Now six or seven Commodores can compete for the promotion to become the Admiral of the U.E.S. Fleet! Inside you will find two more player boards, two more sets of starting cubes, ship cards, and additional materials to help balance and streamline these bigger games.

This is an expansion for Space Base™. You will need a copy of the Space Base™ core game to use this expansion. To make the 6–7 player game that this expansion offers even better, add content from the Space Base™ Saga Expansion 1: The Emergence of Shy Pluto.

- 2 Additional player boards
- 24 Starting ship cards  
(2 sets of 12 starting ships)
