

# EPIC

## TRADING CARD GAME

Designed by award winning game designer  
and Magic Hall of Famer  
**Robert Dougherty**  
with development by  
Magic Hall of Famer **Darwin Kastle**.

*In Epic the gods do battle while the fate of the world hangs in the balance! Players use mighty champions, powerful objects and devastating events to crush all who would oppose them!*

### Easy to Learn, Fun to Play

In Epic there are no cumbersome “resource” or “land” cards. Instead, each turn every player has a single action. The most powerful cards cost an action to play, others are free. This simple system makes Epic easy to learn and keeps play fast and furious from the very first turn.

### “WOW!” Factor

Epic cards have far more powerful effects than TCG players are used to, leading to cool plays and continuous “WOWs!” as new players read their cards.

### Strategic Depth

Every card in your hand is powerful. Any one of them will change the course of the game. But which will you choose to play? That is the decision that makes Epic so challenging and fun to play.

### Great Play Out of Just Two Packs

A special sorting system makes every pack of

Epic balanced for sealed or draft play. This, combined with every card being powerful and playable, allows for

### Organized Play Support

Epic has a nationwide organized play program with unique promotional cards for local events run by stores, and cash prizes for large regional events run by the best event organizers in the business.
