

CLASS TOKEN SETS

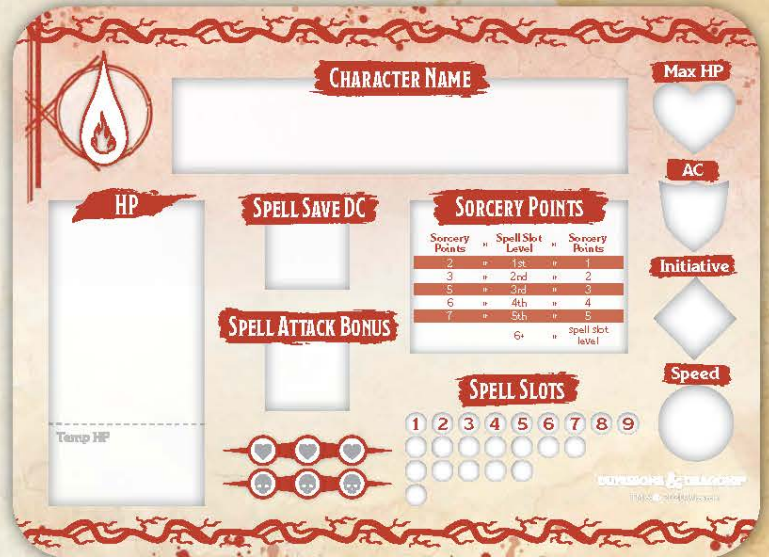

These token sets are designed to allow you to easily and quickly, track your character's status effects. If your character is frightened, paralyzed or unconscious, your allies will be able to see at a glance that you are in need of help. Because all of our full-color tokens are made of durable perspex they are wet-erasable, so you can write additional information straight onto them.

The combat tile provides a place for you to keep a running total of constantly changing statistics like character health and resources, all without dirtying your character sheet with eraser marks.

13 SETS COMING SOON

per set
Sorcerer Class
Includes class tin*,
21 tokens and a combat tile
