

EnOLA HOLMES

Finder Of Lost Souls THE BOARDGAME

*Always looking for patterns...
patterns within patterns*

The game is afoot, and I, Enola Holmes, am on the case. Now... Where to begin?

I am a finder of lost souls, and there is a lost soul to be found. The criminal has left clues, a cypher in the language of flowers, scattered across London. If only I can solve the puzzles to find them.

Detection is not a simple game, but with the help of my extraordinary brother, Sherlock, and a certain nincompoo, I'll see the truth soon enough.

Enola Holmes is an all-against-one cooperative game where the detectives travel around London solving puzzles to gain the clues that will fuel their deductions.

Can you deduce the crime before the criminal wins?
