

Crazy Karts

Key Points:

- ♣ Team based game (like Codenames)
- ♣ Amazing artworks
- ♣ Playable up to 8 players in 60 minutes!

Crazy Karts is team based family game that pits players in a crazy race! Teams of dwarves, elves, mummies and goblins race for championship! Each player has his own player board and depending on his role in a team he is responsible for speeding up, repairs and initiative, or turning, grabbing bonuses from track or boosting Power Ups! The crucial point of this crazy race is that team mates cannot communicate with each other! They cannot talk during planning phase and they need to predict what their partner is going to do! And that's where the fun begins...

Designed by Charles-Amir Perret **Crazy Karts** is an amazing family race game for 3 to 8 players playing in teams (with an option of Lone Wolf player). Different tracks, dozen of obstacles tokens, four unique fantasy factions and many Power Ups tokens make the game great title for all players!
