

# CO<sub>2</sub>: Second Chance

1-4 PLAYERS 60-120 MIN AGES 14+

12.4" x 12.4" x 3" (6 per case)

In *CO<sub>2</sub>: Second Chance*, each player is CEO of an energy company responding to government requests for new, green power plants. The goal is to stop the increase of pollution while meeting demand for sustainable energy. You need expertise, money, and resources to build these clean power plants, and Energy Summits to promote global awareness. *If the pollution isn't stopped, it's game over for all of us!*

This totally redesigned edition brings new iconography, a new rulebook, more balanced gameplay, a new events deck, streamlined mechanics, upgraded wood components for the power plants instead of cardboard, while maintaining the beautiful illustrations on the board and cover, and all this with a shorter play length! This version also has *Competitive*, *Cooperative*, and *Solo* play modes!

This is a ONE-TIME printing of this game.  
The game will not be reprinted.

## CONTENTS

- |                                 |                                   |                             |
