Welcome to the *Village Inn*, the first expansion for the award-winning *Village*. This adds two new buildings to the village: the Brewery and the Inn. Sit down and grab a pint!

The Brewery is a new craft building that you add to the board. This adds an additional good to the game: Beer.

The Inn also adds a tile overlay to the board. At the Inn you meet influential villager cards. You acquire these cards with time and a coin or beer(s).

Each villager card has a unique ability that can be used once per game, giving either points and advantages during the game or scoring some additional points at the end of the game for certain achievements.

Village Inn also includes all necessary components for a fifth player.

30 villager cards	Inn overlay tile
20 influence cubes	Brewery overlay tile
12 beer tiles	new Cemetery tile
5th player items	new Chronicle tile
