Paving the way for next year's *Yu-Gi-Oh! The Dark Side of Dimensions* feature film, this year's *2016 Mega-Tins* put the original Duelists, Yugi and Kaiba, front and center alongside their legendary Egyptian God Cards. **Slifer the Sky Dragon** (Yugi's Egyptian God Card) and **Obelisk the Tormentor** (Kaiba's Egyptian God Card) have been two of the most popular monsters since their debut in season 2 of the original animated series. Now they're bigger than ever on the enormous *2016 Mega-Tins*!

The Yugi & Slifer Tin and the Kaiba & Obelisk Tin each come with 6 variant cards – the highest number of variant cards we've ever included in a tin before! In addition to the Secret Rare Egyptian God Card depicted on the lid, each tin includes 2 Ultra Rare variant cards of Yugi/Kaiba themed cards, including **Dark Magician** and **Blue-Eyes White Dragon**, in their Ultra Rare foil technology (a combo not available since their first appearance in the 2002 *Yugi & Kaiba Starter Decks*).

Each tin also includes 3 Super Rare variant cards, including 2 brand new cards – one Pendulum Monster, and one D/D/D boss monster to go with the *Pendulum Domination Structure Deck*, tentatively scheduled for next year.

As always, each Tin also comes with booster packs for players to open up and get even more cards. The *2016 Mega-Tins* Mega-Packs contain popular cards from 2015-2016 booster sets *Crossed Souls*, *Clash of Rebellions*, *Dimension of Chaos*, and *Breakers of Shadow*!
