Short Synopsis

Two years ago, the ancient conquerors of Atlantis rose from the depths of the Pacific, leaving the world paralyzed in their wake. But, seven girls stepped forward to face the threat, each possessing the Royal Wavelength required to activate the humanoid weapons known as Resonants. These were the only means of stopping the enemy. In a storm of conflict, the girls battled against Atlantis, eventually defeating Ennosigaios, the Lord of Atlantis.

With peace slowly returning, the girls are able to return to their normal lives, but something seems to be missing. Soon, they hear whispers of a secret society known as Nabla's Heart. This mysterious organization is variously rumored to be the dark side of a global corporation, the root of military corruption, or a way to save those they love. Most ominously, there are those who say that Nabla's Heart is plotting the eradication of the Royal Wavelength, causing the girls to go into hiding.

The road ahead of them is dark and lonely, but they have faith that the twinkling stars will guide them. They believe that their paths will cross once again, and they are determined to protect the world and those they hold dear, no matter the cost.

Welcome to the world of **Core Connection! Nabla Conspiracy**, the new base game, and **Jade Judgement**, the new expansion in this amazing "mech-builder" series!

What is Core Connection?

Core Connection is a tabletop game franchise developed by the KEEPDRY Japanese game design team. In Core Connection, players take on the role of one of the 7 main Characters and join in on their adventures as pilots of powerful Mechas in epic battles to save the world from Ancient civilizations and their armies of monsters. Core Connection Nabla Conspiracy is the second installation in the series, following Core Connection Rise of Atlantis, with more games in the works!

What kind of game is Core Connection?

Core Connection is a semi co-op "Mech-builder"... A deck building game all about powering up your giant robot, fighting monsters, and enjoying a game experience that puts you in the shoes of the main cast of a Mecha-anime style world. You are not fighting against the other players in Core Connection, you are working together to defeat the many monsters that are coming off of the monster deck -- Players start out as pilots of basic prototype mechas, gradually building up their power by collecting various Attachment cards, Tactic cards, and boarding more powerful Mechas. The goal of the game is to defeat as many monsters as you can to accumulate Energy... and the first player to gain 20 Energy wins!

Unique Selling points (USPs):

- **Fast paced & easy to learn**
- **Strong Table Presence** - The most unique aspect of Core Connection as a deck builder is that the game tells a story.
- **Replayability** - Multiple characters to choose from for extra game play variety
- **A go-to for Anime & Kaiju fans alike** - In Core Connection: Nabla Conspiracy, you play a Mecha pilot competing against the other players in a battle against Nabla's Heart, an evil secret society.
